

Who is who in ESPERE and ESPERE-ENC?

Definitions:

ESPERE = The project ESPERE pursues the idea of informing the public world wide about the current scientific knowledge of the climate system.

ESPERE is going to found an Association in Krakow in order to organise future projects. ESPERE is lead by a Steering Committee.

ESPERE-ENC is a two-years project, funded by the European Union, which has the goal to develop a climate encyclopaedia for the use in schools in at least seven European languages. A consortium works on this plan. Time frame and tasks are defined by the technical annex to the contract with the EU.
